

SLITTING AND CUT-TO-LENGTH
SOLUTION

**METAL COIL SLITTING&CUTTING LINE
MANUFACTURER**

COMPANY PROFILE

**Deshun
Machinery**

History of the Company

Wuxi Deshun Machinery Manufacturing Co., Ltd. began to design and develop various slitting and leveling&cut to length machines in 2008. Its machines are constantly updated and improved, and it has accumulated rich experience; Deshun Machinery has continued to develop at a rapid pace after the reorganization in 2018. Since 2018, it has basically achieved super-sustainable growth in output value and sales year by year, and has achieved gratifying results.

BUSINESS ROADMAP

Stage 1

The main design and manufacture of various cold-rolled strip of the slitting line, cut to length line, etc

January 2008

Stage 2

The main design and manufacture of various hot-rolled strip of the slitting line, cut to length line, etc

January 2013

Stage 3

Integrated sales, design, after-sales service, the establishment of a new company moved to current address

January 2018

Stage 4

Explore the simple hydraulic slitting&cut to length machines to cater to small business customer requirements.

January 2020

Stage 5

Extend to heavy gauge, high strength slitting&cut to length machines for high-end customers to improve their products

January 2024

Dennis Xu

CEO Company

CEO'S WORDS

Welcome To Our Company

We are confident that our unique skills and expertise are going to make a significant contribution to our success.

We Provide The Best Technical Solution

Passion From Engineers

Practical Good Design

Value For Customers

Affordable Excellent Quality

METAL COIL SLITTING
& CUTTING INDUSTRY

Why Choose Our Company

Why Your Price Is Higher?

We are in WUXI city which is known for the quality of its steel and fine craftsmanship.

Our machine is a totally OEM one. Our first quotation is always based on the quality. If you want a more economic price, please let us know your budget, so that we could make some modification to meet your needs.

Machine Precision&Quality Control

We strictly control the accuracy at each step from design, processing, assembling to quality control, we refuse to cut corners.

Installation Service System

Our engineers has been working for more than 30 years in metal processing machines. We have 3 groups of installation& commissioning team to serve our customers.

After-Sales Service System

2-years warranty period
If there will be any quality problems caused by non-human factors, we will handle it totally for free for you, so that you will have no worries after sales.

PEOPLE ORIENTED
COURAGE TO INNOVATE
MAKING IT BETTER

Our Company Vision & Mission

To be the manufacturing expert of metal cutting equipments
To produce the most practical and efficient world-class products
To be outstanding Chinese manufacturer

Customer First

Focus on Professional

Sincere Cooperation

Open Growth

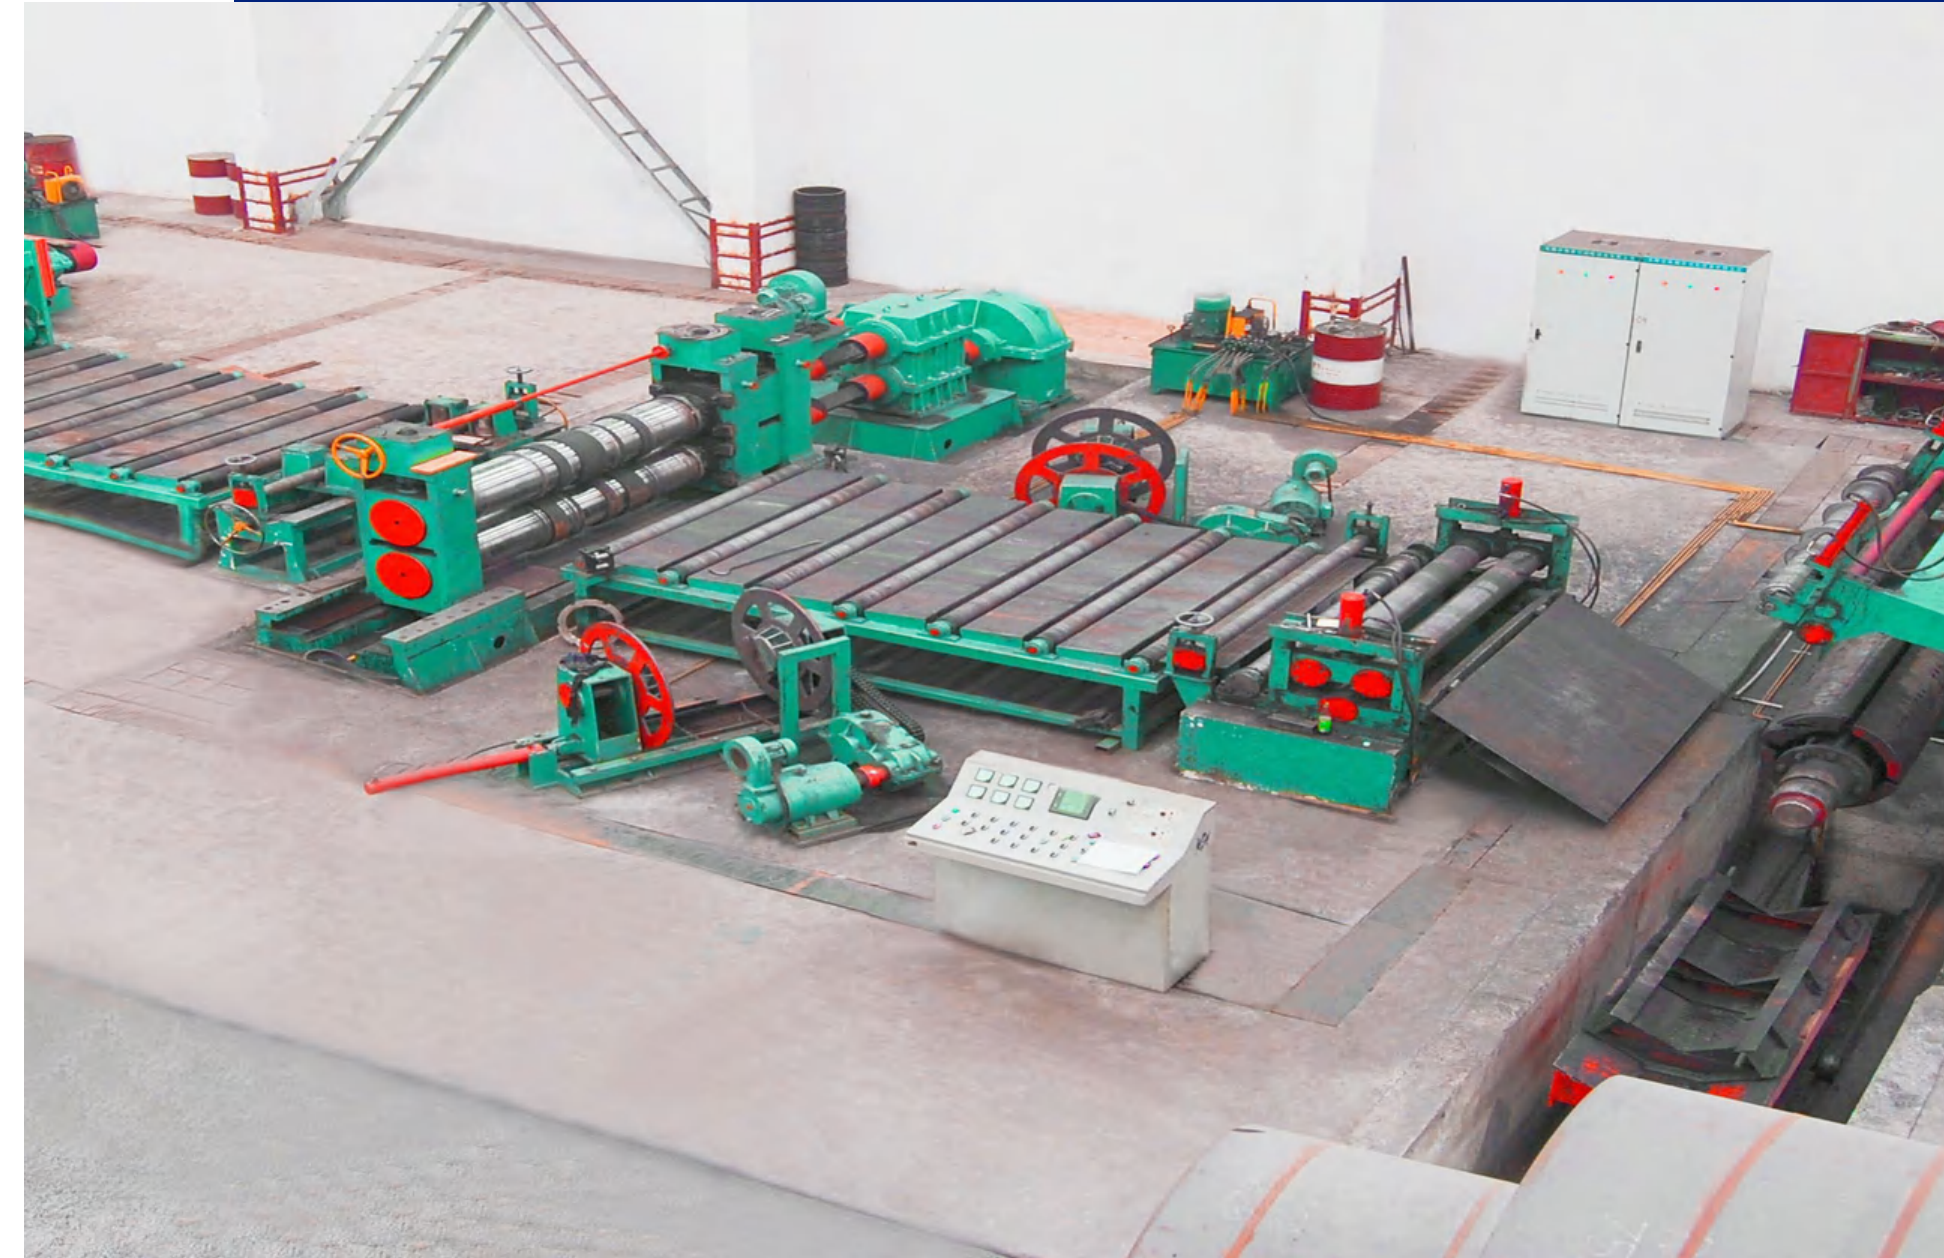

Slitting Line

Description

It's used for slitting the wide coil into required width. It consists of coil car, uncoiler, pinch&pre-leveler, side guider, slitter, scrap winder, separator, tension pad and coil recoiler, 4-arm turnstile, etc.

This automatic coil processing line is a integration of mechanical, electrical, hydraulic and pneumatic technology.

Light Gauge

Thickness Range
0.2-2mm; 0.3-3mm;
1-6mm; 2-8mm;

Medium Gauge

Thickness Range
3-12mm, 4-16mm;

Heavy Gauge

Thickness Range
20mm; 8-25mm;
10-30mm

How many types?

SLITTING LINE

Raw material

Suitable For Hot/Cold Rolled Steel Coils, Galvanized Coils, Silicon Steel Coils, Stainless Steel Coils, Pre-Painted Coils, Aluminium, Copper Coils, Automobile Coils And All Sorts Of Plated And Coated Coils

Coil Width

200-3000mm

Coil Weight

5T, 10T, 15T, 20T, 25T,
30T, 35T, 40T

Slitting Speed

25-400m/min

Coil Thickness

0.2-2mm; 0.3-3mm; 1-
6mm; 2-8mm; 3-12mm,
4-16mm; 6- 20mm; 8-
25mm; 10-30mm

Slitting Strips

2-30

Cut to Length Line

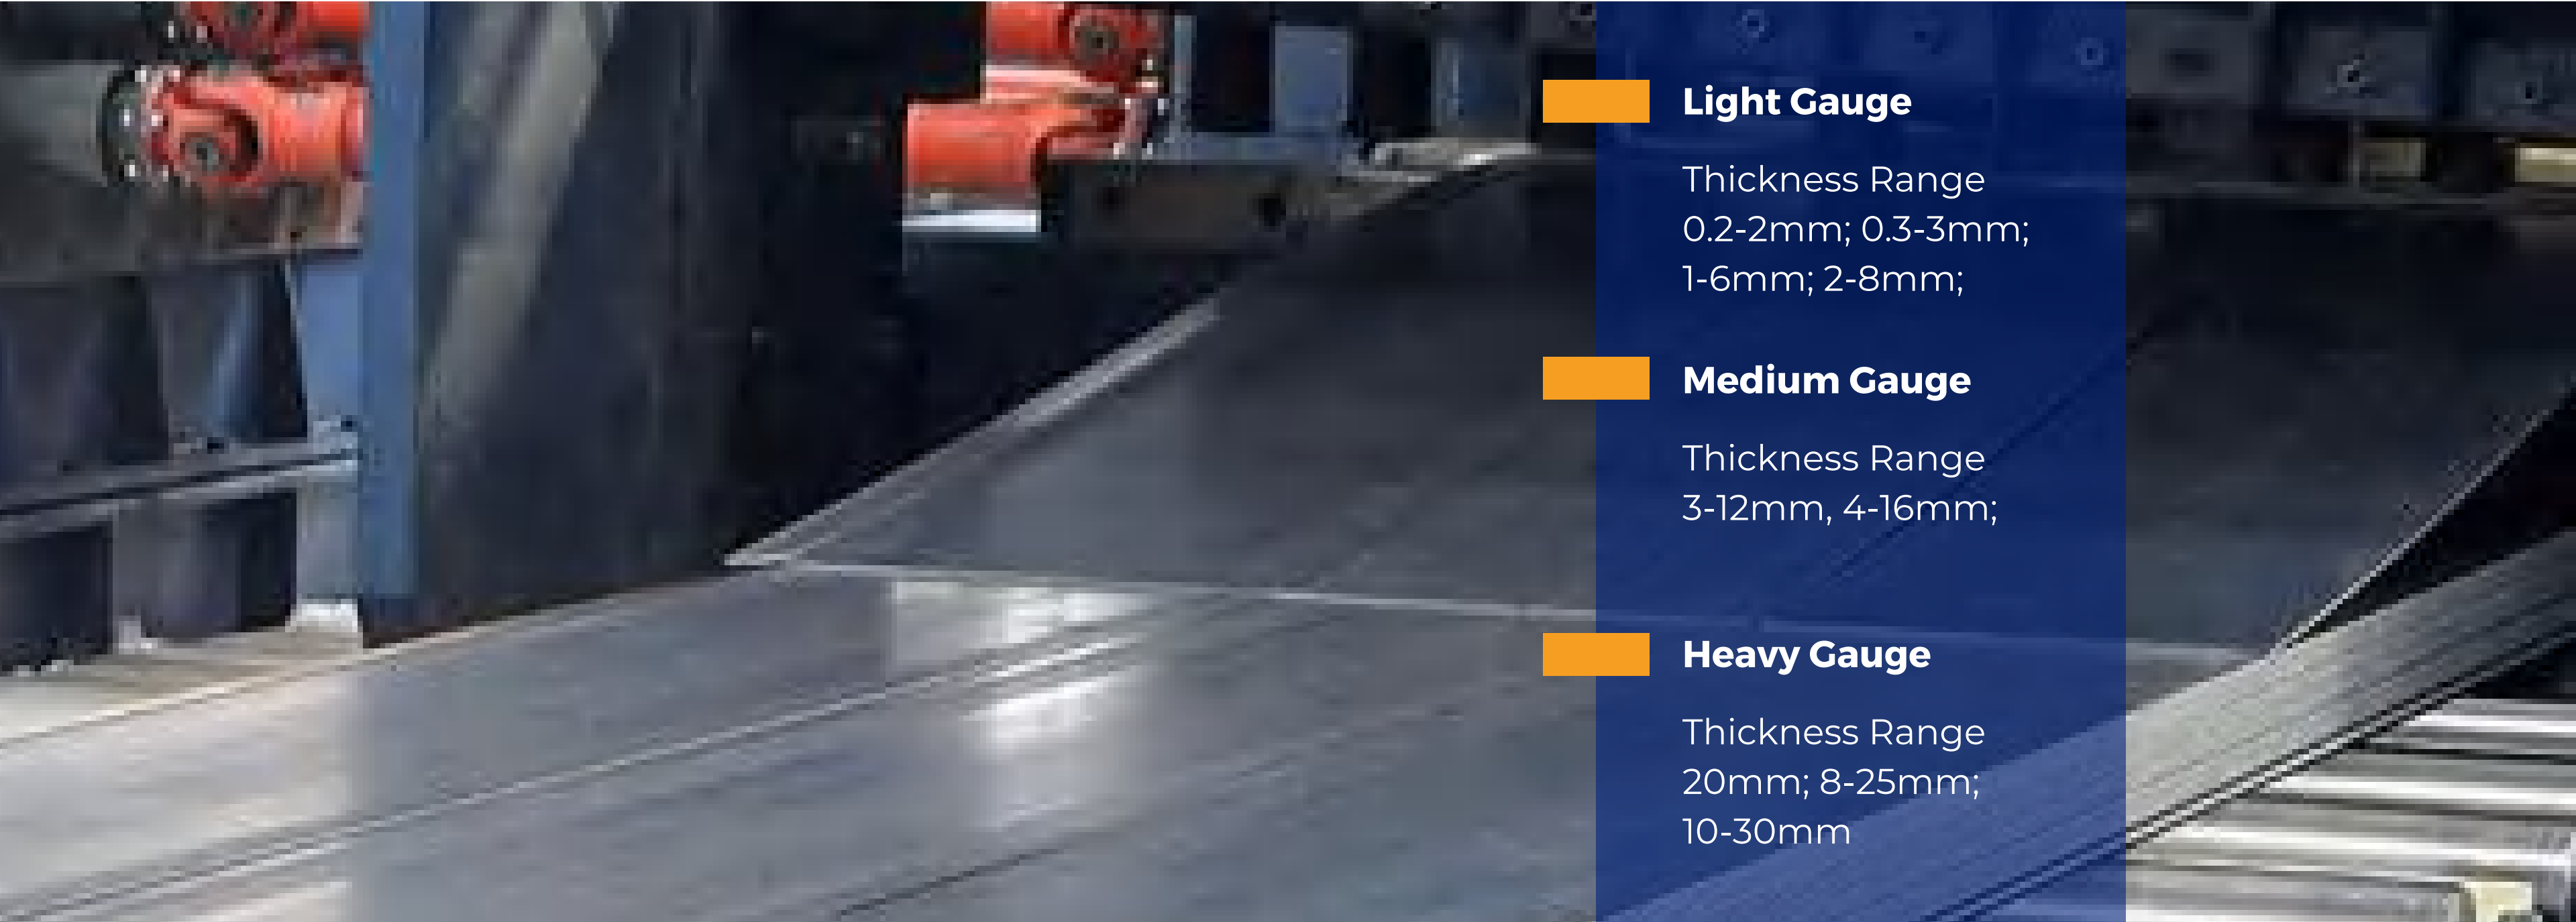

Description

It's used for producing flattened plate through the procedure of uncoiling, leveling and cutting to required length.

It consists of coil car, uncoiler, pre-leveler, hydraulic loop bridge, side guider, fine leveler, servo length gauge, cutting shear, belt conveyor, stacker, discharging car, etc.

This automatic coil processing line is a integration of mechanical, electrical, hydraulic and pneumatic technology.

Light Gauge

Thickness Range
0.2-2mm; 0.3-3mm;
1-6mm; 2-8mm;

Medium Gauge

Thickness Range
3-12mm, 4-16mm;

Heavy Gauge

Thickness Range
20mm; 8-25mm;
10-30mm

How many types?

CUT TO LENGTH LINE

Raw material

Suitable For Hot/Cold Rolled Steel Coils, Galvanized Coils, Silicon Steel Coils, Stainless Steel Coils, Pre-Painted Coils, Aluminium, Copper Coils, Automobile Coils And All Sorts Of Plated And Coated Coils

Coil Width

200-3000mm

Coil Weight

5T, 10T, 15T, 20T, 25T,
30T, 35T, 40T

Slitting Speed

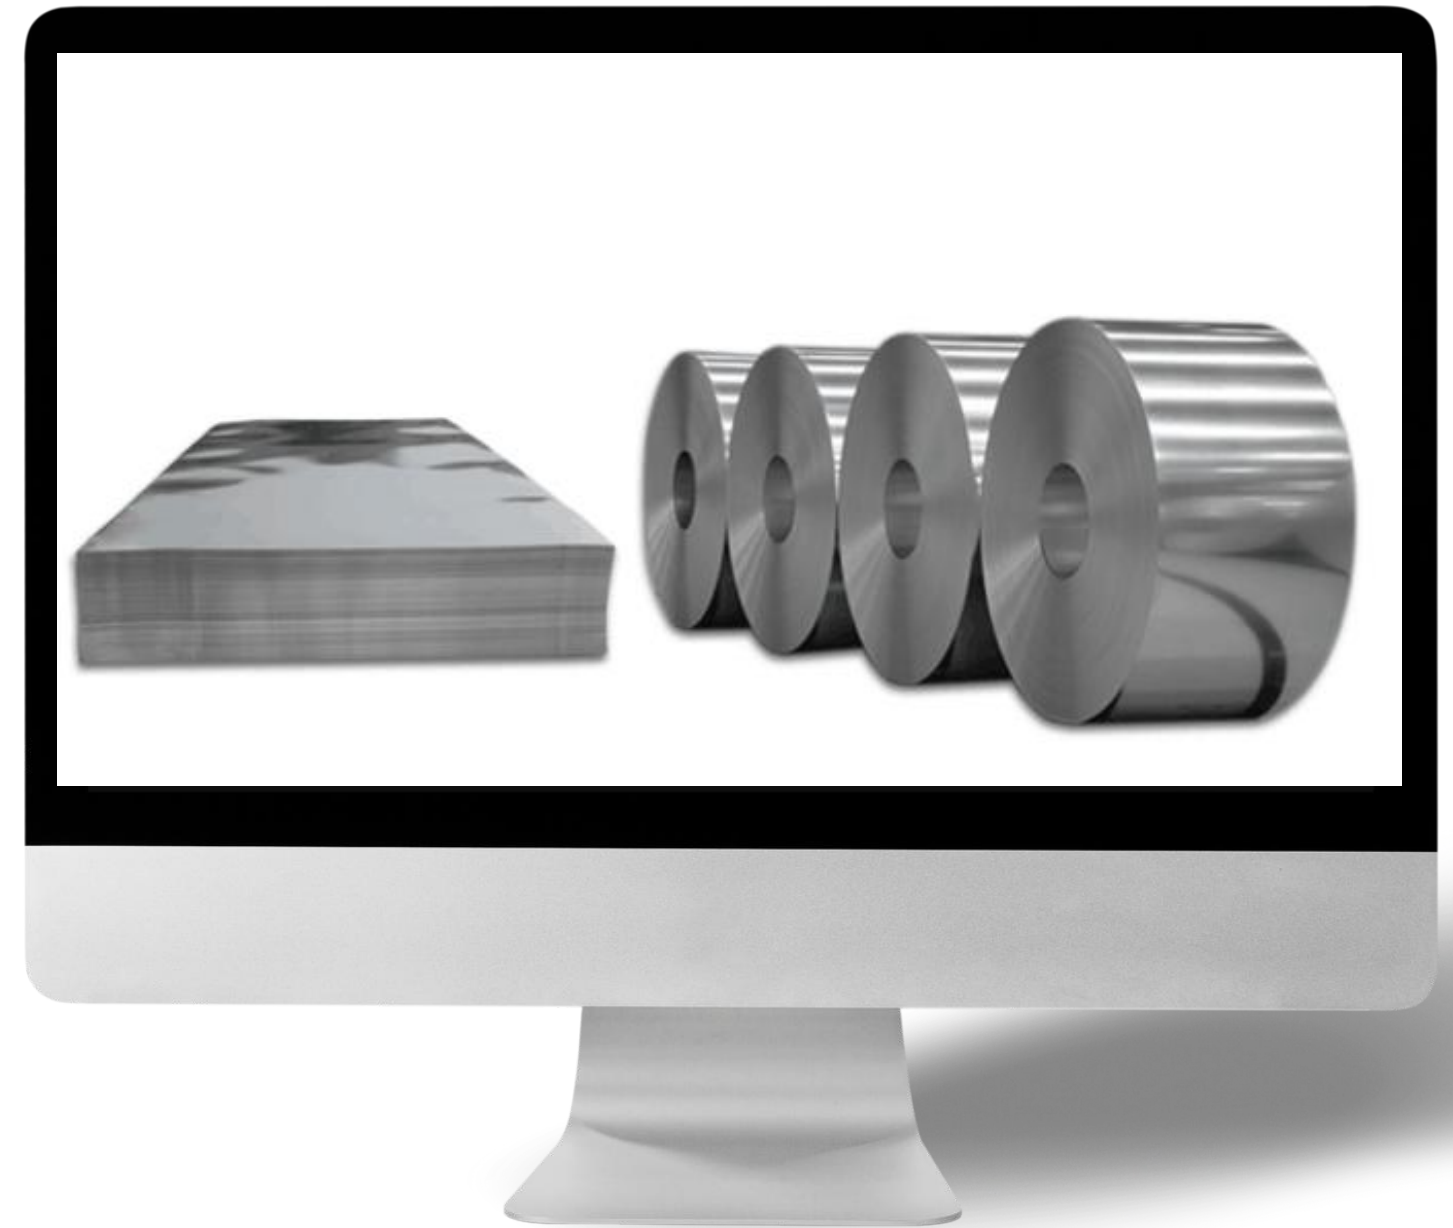

25-80m/min

Coil Thickness

0.2-2mm; 0.3-3mm; 1-
6mm; 2-8mm; 3-12mm,
4-16mm; 6- 20mm; 8-
25mm; 10-30mm

Cutting Length

200-18000mm
